This is Jumpy the scientist

She loves learning about things. She gets all jumpy from learning things!

She doesn't like it when learning is made more difficult than it already is.

**Jumpy studies people.
Really difficult stuff
because you don't know
what goes on inside their
head.**

This is Grumpy the scientist

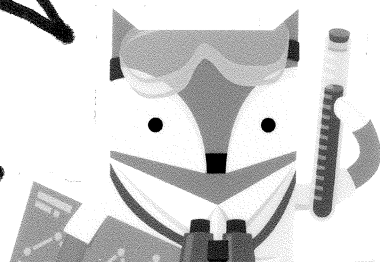

He enjoys learning, but is flexible when he sees things that do not confirm his expectations.

Grumpy also studies people. He has made some questions that really help people tell scientists what goes on in their head.

He sees science as a way to get ahead in life. Make some money, take care of his family, but that's it.

GRUMPY, CAN I USE
THOSE QUESTIONS?
THEY WOULD
REALLY HELP ME IN
SCIENCING!

NO.

WHY NOT GRUMPY? BY
LETTING ME USE THEM,
YOU MIGHT ALSO LEARN
THINGS! AREN'T WE IN
THIS TOGETHER?

NO.

BUT WHY !

WHY CAN'T I USE IT
THEN?

I DON'T ALLOW YOU TO. I
DO SCIENCE FOR MYSELF
NOT TO ACHIEVE SOME
GREATER GOAL. DON'T
BE NAIVE.

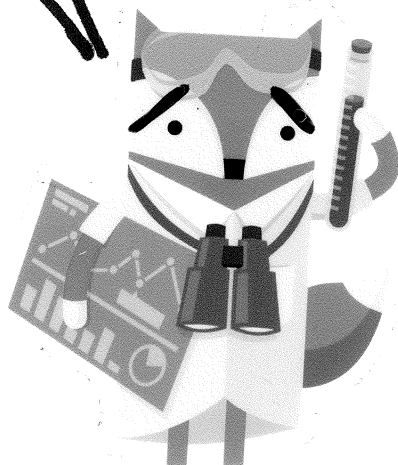

BUT I HAVE THE
QUESTIONS RIGHT HERE!
WHAT'S KEEPING ME
FROM USING THEM
ANYWAY?

COPYRIGHT

AH SHUCKS. YOU
COULD'VE JUST NOT
GIVEN THAT AWAY TO
THOSE CORPORATE
OVERLORDS

I DIDN'T
