

Dr. Amel Ghouila
 *@AmelGhouila*

Bioinformatician

Institut Pasteur de Tunis

H3ABionet (Africa)
 *@H3ABionet*

Mozilla Science Fellow
 *@MozillaScience*

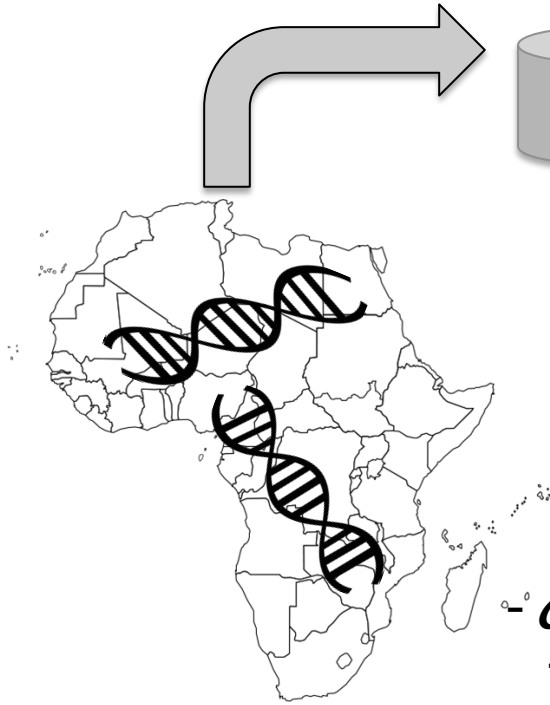

*Working open towards
improving health outcomes in
Africa*

 *AmelGhouila*

*Various DATA
sets generated*

*Several infectious and non
communicable diseases in Africa*

- *Complex analysis*
- *Various skills
required*
- *FAIR data?*
- *Data integration?*
- *Specific genetic
background?*

Limitations

- Huge amounts of *MONEY* spent to generate *DATA*
- Similar *DATA* generated by different groups
- Various skills requited to analyse *Data*
- Slow learning process

Working open!!!

- *FAIR* data
- Peer learning and open education
- Fast data analysis and integration → better answers to understand complex diseases
